SHOCKLES®

Shock Absorbing Solutions

Shockles are most commonly found around boats. They are often used as shock absorbers on dock lines and anchor lines to reduce loads, minimize chafe, increase safety and generally make life at the dock or at a mooring safer and more comfortable.

On a dock line or mooring line, tensions and loads change as tidal surges, wakes, winds and currents change. Shockles absorb shock loads on mooring lines, making the lines last longer. Putting an end to jarring and snapping at the end of the line makes time aboard more

comfortable, too. Shockles also safely absorb sudden shock loads, such as those at the end of a tow line or loads created by a dinghy tied on deck or held at the stern, suspended by davits.

On land or at sea, the Boeing Insitu ScanEagle drone is retrieved by flying it into a catch-line system. Their drone program utilizes Shockles to diffuse the forces created when retrieving ScanEagle drones.

See Shockles being used to catch drones on these You-Tube® videos:

<https://www.youtube.com/watch?v=U6OIoUUhMeg>

https://www.youtube.com/watch?v=+6wSQSDI_Q

Shockles are also used by the U.S. Navy to retrieve drones and launch vessels from moving ships. Monterey Bay Aquarium Research Institute uses Shockles while exploring the Monterey Bay National Marine Sanctuary.

Launch and Capture

SHOCKLES LINE SNUBBER™

**Minimizes stress on ALL lines—
for use on any boat!**

NEW

LineSnubber features a patented stretch limiter and progressive tension design to safely and effectively reduce shock loads. Two 316 stainless steel carabiners offer simple and secure attachment. Adjust or remove in seconds. One size fits all—tie a simple clove hitch in line up to 3/4" (19 mm) diameter or use a pair of LineGrabbers for a working line range from 1/2 to 1 inch in diameter (13–25 mm). Use two LineSnubbers side-by-side on very large boats. Available in blue or black.

Progressive tension design means the further LineSnubber stretches, the greater its return force. The result is smooth action and moderated stress. The patented internal line limiter is made from 2500 pound test (1140 kg) nylon webbing. LineSnubber's outer sheath is 3500 pound test (1590 kg) tubular nylon webbing that is UV resistant to protect the internal parts.

Shockles are strong, but they need to be rigged in-line so they never bear the full load alone. Six to twelve inches (15–30 cm) of in-line slack is recommended. Increase line slack between attachment loops to a maximum of 12" (30 cm) as loads increase. The slack in the line can be wrapped around LineSnubber to "neaten it up" as shown in the docking photo above.

SHOCKLES®**LINEGRABBER™****NEW**

Add a strong attachment point to any line up to 1" diameter (25 mm) with LineGrabber. Made of 1/4" (5 mm) Ultra High Modulus Fiber and holds 2000 lbs. (900 kg). Use a basic Prusik hitch that ties or adjusts in seconds. Make a strong loop to grab a dock cleat, pulpit, handrail or attach LineGrabber. UHMP fiber is tough enough to grab chain and strong enough to help unload a fouled sheet. Very handy to keep aboard!

DockShockle utilizes the same patented stretch limiter and progressive tension design as LineSnubber to safely absorb shock loads on smaller, lighter boats up to 40 ft. (12 m). Comes with two 316 stainless carabiners, and includes a pair of Mini-LineGrabbers for easy attachment to braided or twisted lines up to 3/4" (19 mm). Webbing is 12" (31 cm) long.

Mini-LineGrabbers create quick, secure attachments using a basic Prusik knot.

#2415 DockShockle, black
011698 01057 8**\$49.99** PATENTED**ANCHORSNUBBER™****NEW**

AnchorSnubber safely absorbs shock loads and helps keep your anchor set. Attaches directly to chain, rope anchor rode, or anchor snubber line. Comes with two 316 stainless captive key pin shackles. Fits most anchor chain. Webbing is 20" (51 cm) long. AnchorSnubber helps your boat ride comfortably at anchor, even in rough anchorages, adverse currents, or strong winds. No more chain noise keeping you awake! **Patented stretch limiter and progressive tension design.**

Adjustable Boat Hooks

The Most Dependable
Twist Lock and Strongest
Boat Hook End

A tough boat hook is a valuable asset when launching, docking, mooring or retrieving your favorite hat. Team telescoping boat hooks adjust to 8' or 12' (240 and 370 cm). The threaded end accepts a deck brush, mop, squeegee and other accessories. A highly visible, soft vinyl orange tip covers the threads and protects the boat's finish when fending off. All Team boat hooks float. The hook of unbreakable Lexan® is lighter than (brittle) metal alloy ends. Durability GUARANTEED to last a lifetime. Don't settle for less!

#5141 BOAT HOOK END ONLY
to replace most 1" (25 mm) boat poles.

#4152 011698 41520 5	Adjusts from 54 in. to 12 ft. (140 to 370 cm)	3 sections: 1", 1 1/8", and 1 1/4" (25, 29, and 32 mm) tube dia.	49.99

ADJUSTABLE PADDLES

Paddles are required by law in many states aboard PWCs and small boats. Team adjustable paddles stow easily and telescope to 3'9" (50 to 115 cm). Our Paddle/Boat Hook combination is great to have on board and at the launch ramp. The bright orange paddle end doubles as a signaling device. Made tough for years of hard use.

PRACTICAL SAILOR Says It Best:

"Davis proves to be the best pole... the best value as well."

"If you often use your boat hook to get a line to a dock or piling, the more complicated hooks (like on the Davis poles) would be preferable." "Some sink like stones. The best floaters are the Davis poles." Out of ten poles tested, "five went without failure up to 500 pounds (of straight line pull force)... two of them Davis Team." "It's rare to find the best product is also the best buy." "They float, they're light to handle, the twist-lock joints withstood a lot of pressure, and we couldn't break the heads."

"Tug Tests Take 10 Boat Hooks to the Limits," *Practical Sailor*

#4330 011698 43300 1	Adjusts from 20 in. to 3 ft. 9 in. (50 to 115 cm)	2 sections: 1" and 1 1/8" (25 and 29 mm) tube diameter	\$43.99

Protect Your Lines with Removable/Adjustable Chafe Guards

Chafe protection is critical at the dock, at anchor or on a mooring. Davis offers a great solution to prevent chafing over a cleat, cap rail, where two lines cross or at the anchor roller. Dock lines can be expensive—extending their life with good chafe protection is not!

Velcro® hook fasteners along ENTIRE
interior grip the line—no need
for additional strings
or ties

Secure Removable Chafe Guards offer the most flexibility and can be installed anywhere along lines from 3/8 to 7/8" (10 to 22 mm) and some 1" (25 mm) line as well. Great for anchor lines or mooring pennants, where chafing through a line could cost you the boat. Velcro® brand hook fasteners on the inside of the guard grip the line securely. The outside cover is made of marine-tough nylon for years of use.

**#395 Secure Removable
Chafe Guards, pair**

\$29.99

SHOCKLES® **NEW** FENDER FRIEND™

FenderFriend is a fender whip, hanger and adjuster—all in one! Features Shockles® built-in shock absorber to reduce shock loads generated by fenders grinding against the hull and the dock or piling. No more torn fender eyes or bent stanchions and rails!

- Allows anyone to quickly and easily set the fenders
- Stretches when fenders get pinched between the hull and the dock
- Minimizes loads on stanchions, lifelines, rails, cleats
- Attaches almost anywhere: lifelines, stanchions, winches, cleats, grab rails, workboat rails, toe rails, pulpits
- UV resistant strap adjusts from 16 to 72" (0.4–1.8 m)
- Sturdy, marine grade Nexus® nylon buckle makes attaching fenders a snap

FenderFriend keeps fenders in place while docking or when the boat is unattended. Surges and wakes can cause your boat to grind against the dock—a little bit of stretch helps keep fenders in place. Choose from twin-eye or center-tube models. Made of black, UV resistant webbing with Nexus® nylon buckle.

Attaches almost anywhere to almost anything

FENDER TENDER II™

The original Fender Tender grips all!

Use this Davis accessory to clip your fenders to rails, lifelines, side wing windows or cleats. Fender Tender II simplifies the handling and relocation of boat fenders. "Railing Lock" firmly grasps rails from 7/8" to 1" (22 to 25 mm) diameter. "Lifeline Lock" provides added safety. Use 1/4" to 3/8" (6 mm to 9 mm) diameter nylon line. Made of tough, sun-resistant plastic for many years of use. Helps tidy up your boat.

DAVIS

CHAPPY® TROLLER®

For the Fisherman who thinks he has everything!

*Slows even big motors
down to that "ever-so-slow"
fish tantalizing speed*

A significant advancement for the sport of troll fishing, Happy Troller mounts on the anti-cavitation plate to allow fine control of trolling speed. Your boat's stability is enhanced at cruising speed, too.

Locks in "down" position for trolling, "up" for cruising

Happy Troller reduces troll speed in "down" position. In "up" position, acts as a stabilizer, smoothing out ride in rough water and reducing porpoising and cavitation. Made of highest quality stainless steel and marine aluminum; with clear anodized aluminum finish. Installs in 15 minutes. Use year-round in all boating activities, salt or fresh water.

Two Models:

Large fits inboard/outboards plus all outboard motors 50 h.p. and larger.

Small fits outboard motors from 20 to 50 h.p.

#460 Large Happy Troller \$139.99

Fish Seeker™

**Precisely Sets
Your Trolling
Depth!**

*Turns over and
surfaces when
fish strikes*

Great for **SALMON,
TROUT, STEELHEAD,
WALLEYE, CRAPPIE
and STRIPER.**

Trolling at 2 MPH with Fish Seeker, you can choose any trolling depth from 5 to 80 feet (1.5 to 25 m). Simply choose the right setting for desired depth, let out enough line and troll at slow speed. For salt or fresh water fishing and 6-25 pound test line. A good replacement for outriggers or heavy lead ball sinkers. Not for use with deep diving lures.

How Fish Seeker's depth is controlled: Using a chart supplied with the product, attach your rod line snap swivel to a lettered hole and your leader snap swivel to a numbered hole. Release the amount of line specified, and Fish Seeker will dive to the desired depth.

Whale Tail XL®

**Aluminum Stabilizer
and Ski Boat Fin**

The **Whale Tail XL** unique hydrodynamic design extends behind the prop to utilize prop wash energy which is normally lost. Whale Tail transforms this energy into lift for immediate response when the throttle is applied. Use Whale Tail XL in fresh or saltwater.

**Improves performance in any I/O
or outboard motor**

- Pops skiers up in less time
- Flattens wake for waterskiing; creates positive, skid-free turns
- Stabilizes bow-light boats
- With bow lowered, visibility and safety are improved
- Smooths out ride in rough water
- Reduces porpoising & cavitation
- Increases top speed and fuel savings in most applications
- Mounts on the anti-cavitation plate of all inboard/outboards and outboards
- Installs in 15 minutes with stainless steel hardware included
- Marine grade aluminum with durable anodized finish

**#448 WHALE TAIL XL
Stabilizer & Ski Boat Fin \$67.99**

011698 00639 7

Balanced Performance

Doel-Fin was designed to produce maximum lift while minimizing drag. Creating lift in the stern compensates for motor weight for smoother turns, better gas mileage and less stern drag.

Doel-Fin is the original hydrofoil developed by an aeronautical engineer to **improve overall performance on boats with outboard motors or outdrive units**. Molded in 2 pieces of guaranteed unbreakable, high-strength plastic, each foil is designed to flex independently to absorb shock. The positive effects include greater stability, consistent planing at lower RPM, faster out-of-the-hole performance, steadier turns, higher top-end speeds and lower bow rise at all speeds.

- Doel-Fin improves overall performance— even on boats with well-designed hulls
- Save up to 30% on fuel consumption
- Faster out-of-the-hole for happier water-skiers
- Maintain lower planing speeds without constant throttle adjustments for wakeboarding, tubing or beginning skiers
- Less bow rise for better visibility and increased safety
- Simple 15-minute installation; hardware included

Doel-Fin is designed for use with small motors, big motors, and inflatable dinghies. Boats with small motors no longer “porpoise” with the bow-up when the throttle is applied and achieve planing at lower engine speeds. Big motors benefit from less stern suction, faster planing times and steadier turns. All these features add up to increased fuel efficiency.

Improved performance on boats of all sizes, from small dinghies to large ocean cruisers!

#440 DOEL-FIN Stabilizer, set of left and right fins, black

011698 00185 9

\$37.99

Motor Caddy is sized to be quickly attached to most outboards from 2–15 horsepower. This improved design features a longer strap to fit 4-stroke motors and an added security strap for today's streamlined engine cases. Made of UV resistant materials that will endure the marine environment for those who prefer a semi-permanent installation. Glass filled Nexus® nylon buckles insure easy installation and removal. Makes lifting and moving cumbersome motors safer, simpler.

#430 Motor Caddy Outboard Hoisting Harness

011698 04300 2

RUDDER POSITION INDICATOR

#385 Rudder Position Indicator

011698 03850 3

\$29.99

Avoid Veering—and Collisions!

Awareness of the rudder angle is a most important safety factor. This is especially true while moving in and out of your berth, drawing alongside another boat, picking up a skier, mooring, or any other “close call” situation. Davis' Rudder Position Indicator gives instant visual reference of rudder angle. The pointer swings a full 30° with each revolution of the wheel. Mounts easily with its self-adhesive pad directly to your hub. Indicator is approximately 2" (5 cm) in diameter. Rugged, hermetically sealed, weatherproof and sunproof housing ensures long life. No cables, adjustments, or electricity required; gravity power makes it simple and service-free. Suitable for boats with mechanical and single station hydraulic steering systems.

DAVIS

ROCKER•STOPPER™

**Number of Rocker Stopper Units Needed on Each Side of a Boat**

Up to 26 feet (0 - 8 m)	3
27 to 36 feet (8 - 11 m)	4
37 to 42 feet (11 - 13 m)	5
43 to 50 feet (13 - 15 m)	8

#352 Rocker Stopper, individual unit **\$13.99**
011698 03520 5

14" (36 cm) diameter
Weight 1 lb. (.45 kg)

A hydrodynamic device scientifically designed to stabilize a boat moored, anchored, or drifting.

The more wind and waves, the better RockerStoppers work!

With engines off or sails down, you feel the sea as you stop for meals, fishing, rest or sleep. Rocker Stopper is the solution—efficiently dampening the effects of waves and wake on a stationary boat. Designed for rugged use.

For sailboats, powerboats, fishing boats, too!

Lightweight and molded of high-impact, virtually indestructible styrene. Can be deployed or retrieved in seconds. Salt water resistant, gentle to the sides of your boat. Units "nest" within each other, so storage is a breeze.

TIP Rocker Stoppers are excellent for slowing drift while fishing, and can also be used as a dock stabilizer.

Length of Boat

SWIM STIRRUP™

The Safe Solution to a Slippery Situation

#1466 **Swim Stirrup** **\$25.99**

011698 00649 6

The **Swim Stirrup** provides safe, easy access to small boats for swimmers or water skiers. Durable, reliable design attaches to gunwales, transoms, or open bows.

- Perfect for rowboats, ski boats, dinghies, sailboats
- Adjustable length to fit your boat
- Complete hardware and instructions included
- Easy to install, easy to use—it even floats!

PORTABLE DOCK RING™

It's as easy as 1-2-3:

- 1 Insert between dock planks.
- 2 Turn 90° to secure under dock.
- 3 Slide to edge of dock, tie rope.

Carry it in your boat!

• Powerboats • Fishing boats

• Sailboats • Seaplanes • Jet skis

No cleat or ring in place? Rings in wrong place? Then use Portable Dock Rings as a convenient way to tie up your boat. Made of heavy duty steel (5/16", 8 mm), tested to hold even in wave action. Zinc plated to resist rust for years.

#387 Portable Dock Ring

011698 03870 1

\$18.99

TIP Many boaters carry a Dock Ring and line in their tenders.

Line Snubber™

A Shock Absorber for Your Lines

For fishing lines, too!

Line Snubber helps reduce stress and wear on your lines and cleats. They're available in 22" length (56 cm). Molded of highest quality rubber for years of service. Packaged in pairs.

Sailors, fishermen and other boaters will find many uses for Line Snubber, from anchor snubbing to trailering. Using them on parallel lines maximizes their effectiveness. Sailors can use them to lash a tiller, tie down a halyard or rig a boom preventer. Snub docking lines and mooring ropes. Reduce shock on fishing lines, too. Line Snubbers will secure a dinghy in place or keep one steady while being towed. Protect your lines, cleats, boat components and surfaces from wear with Line Snubber.

FSR™ FIBERGLASS STAIN REMOVER

THE BEST THERE IS! USE ON SHOWERS AND SPAS, TOO.

FSR is a unique stain absorbing gel that serves a variety of purposes both ashore and afloat. It's ideal for removing oil, rust, exhaust, waterline and transom stains, yet it can also be used anywhere else fiberglass stains may crop up—shower stalls, furniture, etc. Use for removing road soil from trailer boats and recreational vehicles. Its non-abrasive quality means that it's safe to use on white painted surfaces as well as on gel-coat. Requires no sanding or compounding. Simply apply with a brush, sponge or cloth. Wait a few minutes and then wipe off or rinse.

- Great for exhaust and waterline stains
- Removes rust from stainless steel stanchions and railings
- Excellent for removing "rust bleeders" from hull or deck
- Removes road dirt from RVs and trailer boats
- Safe on white painted surfaces

TIP Removes rust stains from clothing, sail cloth, and other fabrics.

Rust stains on fiberglass—gone!

TIP: Test a small area first to be sure FSR will not damage finish.

Solar LED Innovation

All SolLight products feature a solar cell and internal battery engineered as a system to capture and store the sun's energy. Makes light available when and where you need it. U.S. designed, rugged enough to survive all outdoor adventures. SolLight units have been to the top and bottom of the world and points in between. Solar LED innovation for everyday use: "Simply brilliant! Why didn't I think of that?"

LIGHTCAP™ 200 NEW

Illuminated Water Bottle Cap

2" (51 mm) cap
2.6 oz. (74 g)

Take the light with you!

LightCap 200 turns any 2" (51 mm) bottle into a solar lantern. Four white LEDs light up the night. Built-in light sensor switches cap off during daylight hours while battery charges. A waterproof switch turns light on/off. All electronics are fully sealed for use in the field (not dishwasher safe). Stores up to 15 hours of light on a full charge.

Waterproof storage for important items, and it floats!

RAILLIGHT™ PREMIUM **NEW**

Includes
QuickMount
System!

RailLight comes in two models, **Premium** and **Mini**. Both feature FastSolar™ charging system to replenish the internal storage battery. Both switch on automatically at night and off during the day. Manual switch allows RailLight to be turned off when you're not there. Both RailLights are fully marinized and feature stainless steel cap and post, UV resistant polycarbonate lens, nylon mount fittings, waterproof switching and fully sealed electronics. Rail Clamp fits railings from .65"–1.25" diameter (17–32 mm).

RailLight Premium has 4 bright white LEDs and can be switched between 2 and 4 LED function. Stands 14" tall (36 cm). Comes complete with the QuickMount System (pictured below), offering several installation options. Stores up to 8 hours of light on a full charge.

Most marine tubing measures either 7/8" or 1" (22 or 25 mm).

\$29.99

RailLight Mini has 2 bright white LEDs and is 11" tall (28 cm). Includes nylon Rail Clamp that fits .65–1.25" diameter rail (17–32 mm). Sealed on/off switch. Stores up to 8 hours of light on a full charge.

Most marine tubing measures either 7/8" or 1" (22 or 25 mm).

QuickMount System

Offers three distinct mounting options: Rail Clamp, Threaded C-Clamp, or Wall Mount. Fits RailLight Mini, or use to securely fasten small electronics such as a camera, GPS, GoPro® or monitor. Also ideal to hold a hose, extension cord, rescue buoy, etc. All parts molded of tough, UV resistant nylon.

Included with RailLight Premium.

DAVIS**LIGHTSHIP™****Portable Solar/LED Interior Light** **NEW**

LightShip is perfect for boats, cars, RVs or home. Three powerful suction cups allow mounting with the solar cell facing the sun. Three bright white LEDs provide enough light for reading. Or switch to one, single red LED for night light function. Unit can also be switched off to store up energy for future use. Built-in light sensor switches LightShip off automatically during daylight hours. Made of tough polycarbonate with clear, molded lens and reflector to maximize LED intensity. For interior use only.

#3460 LightShip **\$24.99**

011698 010905

LED **MEGA** **LIGHT™** ENERGY EFFICIENT LIGHTING

UPGRADED**Boating • Fishing • Travel • RVs • Camping****NEVER WORRY ABOUT POWER CONSUMPTION AGAIN!**

Campers, RVs, fishing boats and sailboats all face the same challenge when nighttime comes: limited battery capacity for general lighting. LEDs developed in recent years provide a solution. Mega-Light uses an energy efficient LED bulb that draws just 30 milliamps (a mere 1/30th of an amp). On a fully charged car battery, Mega-Light could run continuously for 2000 hours or more. Your battery will hardly know it's there!

Both **Mega-Light Utility** and **Mega-Light Masthead** include a light sensor that automatically switches the light on at night and off at dawn. Both models feature a dual-function Fresnel lens that projects light for up to two nautical miles (3.7 km). Hung upside down, the clear top of the lens provides area lighting in the cockpit or around the campsite.

Both **Mega-Lights** now come with two easy-to-change light bulbs. A bayonet-type LED draws 30 milliamps and can be seen for up to two nautical miles (3.7 km). The other bulb, incandescent, is more than twice as bright. It draws 0.32 amp (320 milliamps). Other improvements include 100% waterproof O-ring sealed lens & base, and energy efficient circuit board design.

Mega-Light Utility#3310
Mega-Light Masthead

Mega-Light Masthead comes mounted to a stainless bracket for easy installation to a masthead, interior wall or bulkhead. Use as a masthead light to mark your boat on a mooring, at anchor, as a nighttime security light or a marker light to light stairways and entryways. Stainless steel bracket with (6) #10 holes and two key-way slots provides multiple installation options. Includes mounting hole for use with Davis Windex® mounting base. Comes with 12" (30 cm) lead wire. On-off switch and fuse holder for hard-wire installation not included.

NEW #3330L Replacement Bulbs for all Mega-Lights.

LED bulb is energy efficient, drawing less than 30 milliamps (1/30 amp). Lasts up to 10,000 hours. Also includes #1893 incandescent bulb to provide "soft" lighting; draws 320 milliamps.

011698 333004 **\$6.99**

ECHOMASTER™

Ranked One of the World's Best Radar Reflectors!

Giving ships a chance to see you in fog and low visibility conditions is a must for serious boaters.

Echomaster's full 12.5" (32 cm) diameter circular reflector plates provide 13.2 square yards (12 sq. meters) of maximum effective radar cross section in the X or 3 cm band (9-9.6 GHz frequency), based on optimum orientation between the reflector and radar. Offers equivalent radar cross section of conventional triangular plate reflector with approximate 17" (43 cm) diagonal dimension.

Robust, marine-grade aluminum plates are sufficient thickness to minimize flexing; dimpled to minimize angular distortion. Tough injection-molded, captive corner latches assure minimum angle error. The 1 1/4" (32 mm) windage holes reduce aerodynamic drag and allow assembly of the reflector around a backstay. Easily assembled or demounted. Stows flat.

Make your boat visible to other vessels.

Find your way home in less than perfect conditions. Mount a radar reflector on a buoy or piling to help identify your dock or mooring.

Mark hazards to navigation to supplement official channel markings. Install radar reflectors on specific hazards—bridges, rocks, submerged trees, sunken boats.

To **SURFACE MOUNT** an Echomaster, use the corner blocks from the #156 Hanging Mount System with five pipe fittings commonly found in hardware stores.

To order the Radar Reflector Booklet separately, contact customer service and ask for #R155E (\$3.00).

UPGRADED ECHOMASTER with Marine-Grade Anodized Plates

12 square meters of radar cross section. Plates are made of sturdy, stamped 1.3 mm thick aluminum with riveted nylon corner latches for quick assembly or disassembly. Install around a backstay using corner blocks from #156 Mount System, or make your own hanging bridle as described in the 16-page Radar Reflector Booklet included with Echomaster.

#152 011698 01520 7

\$79.99

Echomaster meets U.S. Coast Guard requirements for lifeboat and liferaft radar reflectors under SOLAS 74/83.

\$14.99

Echomaster's proven superiority:

- Ranked one of the best radar reflectors and one of the top ten sailing products by *Practical Sailor*.
- Rated "superior" by SRI after the most rigorous tests ever conducted on radar reflectors, some costing 10 times as much.
- Performance diagrams from the Admiralty weapons test, England, showed Echomaster's high response to incoming radar at all angles:

Quick Fist

One Piece Rubber Clamp

Securing your equipment just got a whole lot easier!

Two Sizes Grip Anything

from $\frac{7}{8}$ to $7\frac{1}{2}$ " (22–191 mm)

Quick Fist is a rubber clamp that mounts easily to keep tools and equipment firmly in place. Ideal for boats, off-road trucks, military equipment, ATVs, or any vehicle. Quick Fist clamps are made of heavy duty transportation grade rubber. They're UV resistant and withstand extreme heat or cold. Mount easily with #10 (5 mm) bolts or screws. Terrific for marine use—Quick Fist will not rust or corrode. Available in standard or super sizes. PATENTED

#540

#544

Quick Fist

Standard **Quick Fist** is ideal for stowing or transporting tools. Can also be used as a pipe stand-off (do not use on exhaust pipes). Mounts easily with one #10 (5 mm) bolt or screw (not included). Can be mounted with strap facing any direction. To clamp, pull strap through jaw and lock into place. Sold in pairs. Multiple Quick Fists can hold larger tools.

- Holds objects from $\frac{7}{8}$ – $2\frac{1}{4}$ " in diameter (22–57 mm)
- Each clamp supports approximately 22 lbs. (10 kg)

#540 Quick Fist Clamp Package includes 2 clamps
Mounting base measures $\frac{7}{8} \times 2\frac{3}{4}$ " (22 x 70 mm)

Salt & Fresh Water Body Gel & Shampoo

- Works in all water
- Skin pH neutral
- Biodegradable

Formulated for salt water, hard water, brackish water, or chlorinated water. Ideal for swimmers, boaters, fishermen, campers, travelers, fitness enthusiasts.

Unique Formulation: Aqua Lather's exclusive blend cleans, freshens, and counteracts salt, sun & wind damage. Works up a rich lather—even in hard water or salt water—that removes all dirt and grease. Leaves skin feeling smooth and hair tangle-free. No annoying curds or residues. Aqua Lather is pH neutral: won't harm hair or skin, no matter how often used. Light, natural fragrance.

Biodegradable: Breaks down into nature's own elements. Leaves no pollution.

Convenient: Dispensing spout flicks open and closed. No lost cap or messy spills. Compact, tuck-away bottle contains the right amount for travel. Great for dishes and clothes, too!

Economical: Each bottle contains enough concentrate for scores of baths and shampoos. You can wash in salt water and follow up with a fresh water final rinse in places where fresh water is scarce.

IT'S EASY TO PREVENT STEERING PROBLEMS!

KEEP WATER & DIRT OUT...

THE ONLY PRODUCT THAT LUBRICATES STEERING CABLE

CABLE BUDDY™

#420

... PUT LUBRICANT IN!

SEALS AND LUBRICATES STEERING ROD

LUBE II™

#425

7/8" x 14 pitch threads fit U.S. and Japanese outboard motors

Max-Lube™ oiling-tube method
(Lube II shown)

STEERING CABLE LUBRICATION SYSTEM

Cable Buddy is a complete steering cable lubrication system. Includes the stainless steel Cable Buddy nut with plug and sealing washer, oiling tube assembly, and Max-Lube, the ideal lubricant for steering cables. Works on inboards, outboards, and inboard/outboard steering cables. Fits all major U.S. and foreign motors (7/8" x 14 pitch threads). Seals moisture out, puts lubricant in. Prevents corrosion and freezing down to -40°F (-40°C). Cable Buddy lubricates and virtually eliminates all wear in the *inner* cable, where *most* problems occur. Easy to install (if you can take the cable off, you can install the Cable Buddy). Install the Cable Buddy now... or deal with the hassle and expense of replacing your steering cable later!

#420 Cable Buddy

with 1 lube nut & Max-Lube
011698 04200 5

Lube II allows sticky, hard to move steering rods to be properly and easily lubricated for smooth, easy steering action. The system includes a stainless steel lubricating nut with an oil seal and a grease (zerk) fitting. This lubricator's unique design keeps moisture and contaminants *out* while enabling you to pour or pump several types of lubricant *in*. Your choice: (1) Max Lube (#422) synthetic lubricant with high water separation qualities and anti-corrosion protection. This is the best lubricant available for the purpose. (2) A high grade 90w synthetic gear oil. (3) High quality white lithium grease. Lube II helps correct and prevent steering problems. For both mechanical and hydraulic systems. Fits all major U.S. and foreign motors (7/8" x 14 pitch threads). Easy, 10 minute installation. Marine grade stainless steel for salt and fresh water use.

\$34.99

#425 Lube II

011698 04250 0

\$25.99

Max-Lube excels under pressure— anywhere oil is required. This proprietary synthetic film has many advantages over other synthetic and premium oils: superior rust and corrosion protection, rapid separation from water, greater stability at temperature extremes, 10-20% reduction in operating temperature, and 5 times greater load carrying. The net result is smoother, quieter, cooler and longer operation. Max-Lube is recommended for steering cables (all boat motors, fresh or salt water), sporting equipment (fishing reels, guns, bike chains), all gears regardless of type or size, and all metals.

#422 Max-Lube \$9.99

**Protection for
Propellers and People**

Prop Sox are socks for your prop. They protect your expensive propellers from road kickback when towing. Reflective hot dots alert drivers following too closely behind. People walking by a boat on a trailer can be cut without Prop Sox in place. The bright, molded plastic socks simply slip over each propeller blade and are held in place with a rubber shock cord strap. For use on boats out of water only.

#450 Prop Sox Set of 3 **\$9.99**

Air-Dryr 1000

Use at Home or Office Basements, closets, under desks, storage units, tack rooms, pump rooms, gun cabinets, pianos

Use in RVs and Airplanes Motor homes, trailers, cars, aircraft

Use in Boats Cabins, bilges, engine rooms, V-berths

Air-Dryr™

Say Goodbye to Mold, Mildew and Moisture

Air-Dryr is an inexpensive and effective way to fight moisture problems, cold drafts, and corrosion. Designed to operate anywhere, 24 hours a day. Place Air-Dryr on the floor in any damp, enclosed space and plug into a 110/120 volt outlet. Damp air is heated to the point moisture is held in suspension (above dew point), then released through the top vents of the device. As warmed air rises, cooler damp air is drawn in, where it too is heated. Natural convection circulates the air.

Air-Dryr fights the humidity problem with a different (and simpler) strategy than a dehumidifier that drains into the sink—with the same result! Costs no more to operate than burning a light bulb. A thermal cutoff turns the unit off should air flow be impeded.

Features of all **Air-Dryr** models:

- Attractive, neutral beige housing made of polycarbonate for strength and durability
- Slim and stable; can be placed out of the way in confined spaces
- Handle a high volume of air
- Low operating cost; designed to be left on 24 hours a day
- Silent in operation, safe to the touch
- Trouble free—no switch, fan, or thermostat
- Safe for marine use—no components which cause sparking

Two models

#1459 Air-Dryr 500. Handles up to 500 cubic feet of living space. Draws only 0.6 amps, 70 watts. Rectangular unit measures 13.5 x 5.5 x 4.25" high.

011698 00643 4

The Original

Windscoop™

Ventilating Sail

#291
Windscoop

011698 00176 7

\$54⁹⁹

Put an end to hot, stuffy cabins and sleepless nights. The Windscoop Ventilating Sail is aerodynamically designed to force the slightest breeze into your cabin to keep you cool and comfortable. The versatile Windscoop can be hung from a halyard boom or roller furling sheet. Fits any hatch or companion-way up to 4 feet (120 cm) wide. Nothing to install. Since the Windscoop has no tie-downs, once you put it up, it will follow a variable wind. Works with most screens. Colors vary.

Added material and strengthening in stress areas. Two battens are sewn in place. All seams are double-stitched.

Windscoop is packed in its own protective nylon storage bag.

POWERBOATERS! It's easy and inexpensive to adapt WINDSCOOPS for powerboat use. Click "Instruction Manuals" on the Marine Support menu at our website.

DAVIS

CHARTING KIT

*Everything
You Need for
Chart Work!*

This handy kit makes chart work easy. A choice selection of navigational tools for cruisers and racers as well. Kit includes:

- One-Arm Protractor
- Course Plotter
- Protractor Triangle
- Parallel Rules
- Professional Dividers
- Pencil
- Instruction Booklet

All are conveniently organized in a 5³/₄" x 16¹/₄" (15 x 42 cm) heavy gauge plastic carrying case. An excellent gift idea!

#083 Charting Kit \$54.99

011698 00830 8

**Highest Quality
Printing:**

Davis plotting tools feature sharp printing process, high gloss finish on front and back, and overlamination for durability.

PARALLEL RULES

**The most basic plotting instrument**

Davis Parallel Rules are completely transparent with a clear optical finish for exact plotting. Each 15" (38 cm) blade features large, easy-to-grip handles. Smooth instrument action, non-slip cork pads. Precision molded for the most accurate straight line plotting money can buy!

#061 Parallel Rules 011698 00610 6 \$19.99

CHART HOLDER

All-Purpose Storage Container

- WEATHERPROOF • DURABLE • FLOATS

**LIFETIME
GUARANTEE****Ideal for charts, documents, prints, papers, fishing rods, parts.**

40" long x 3" diameter (1.0 m x 7.5 cm). Made of clear, unbreakable polycarbonate for total protection and long life...guaranteed! Tubes are large enough for most marine charts, yet stow easily. Special identification label provided for quick cataloging of contents. Molded end caps ensure maximum security.

#086 Chart Holder 011698 00860 5 \$19.99

TURBO METER

#271

011698 02810 1

\$165.00**ELECTRONIC WIND SPEED INDICATOR***Measures Wind Speed from 0-99.9 MPH (0-44.8 meters/sec)**Accurate to ±3% of Reading*

- Responds to Lightest Winds
- Four Scales
- Easy to Read Day or Night
- Weather and Shock Resistant

The rotation of Turbo Meter's freely turning turbine, suspended on sapphire jewel bearings, is sensed by an infrared light beam. The resulting signal is processed electronically. The display has been made larger, brighter for excellent viewing in full sun or dark conditions. Auto Power-Off. Compact size (2.6 x 4.7 x 1.2", 7 x 12 x 3 cm) and lightweight (3 oz., 85 g). Wrist lanyard, protective case included.

NIST

AVAILABLE

SCALE	RANGE	RESOLUTION	THRESHOLD
Knots	0-87.9	0.1 Knot	0.9 Knot
Feet Per Minute	0-8790	10 FPM	90 FPM
Meters Per Sec.	0-44.8	0.1 m/s	0.5 m/s
Miles Per Hour	0-99.9	0.1 MPH	1 MPH

For intermittent use only above 12 MPH (1000 FPM).

Requires 3 AAA alkaline batteries (not included). Redesigned for even longer battery life.

Davis wind speed indicators are useful in many fields

- Yachting • Boating • Windsurfing • Aviation • Sky Diving • Hang Gliding
- Hot Air Ballooning • Track & Field Events • Skiing • Mountaineering
- Archery • Shooting • Model Flying and Sailing • Kite Flying
- Meteorology • Air Flow Testing • Crop Dusting • Ventilation
- Wind Sensitive Construction and Spraying • Anywhere wind is a factor

Wind Wizard

#281

011698 02810 8

\$55.99**MECHANICAL WIND SPEED INDICATOR***Measures Wind Speed from 0-60 MPH (0-26.8 meters/sec)*

- Reads in Miles Per Hour, Meters Per Second, and Beaufort
- Direct reading dial card supported on sapphire jewel bearings
- Sturdy, corrosion-resistant construction
- Unique folding handle makes unit shirt-pocket size
- No batteries required

The Wind Wizard is a rugged, precision instrument. The direct reading dial features sapphire jewel bearings and gold-plated balance spring. A special magnetic damping system uses two rare earth magnets to steady the dial card, greatly reducing the tendency of the readout to "jump around." High impact plastic case; all metals corrosion resistant. Measures 3.6 x 2.9 x 1.0" (9 x 7 x 3 cm) with handle folded. Wrist lanyard and vinyl leather-like carrying case included.

Vantage Vue® Wireless Weather Station

Compact. Rugged. Accurate. Reliable.

PRECISION WEATHER INSTRUMENTS

The Vantage Vue weather station combines legendary Davis accuracy and rugged durability into a compact station that's easy to set up and use. Vantage Vue includes a sleek but tough outdoor sensor suite and distinctive LCD console. Its unique Weather Center function provides additional information on each weather variable. In addition, Davis has made the Vantage Vue radio compatible with our flagship Vantage Pro2 stations, so you can mix and match most components.

Sensor suite and console not shown to scale.

#6250 Vantage Vue Station

011698 00912 1

\$425⁰⁰

Multiple features affordably priced.

The Vantage Vue's compact outdoor sensor suite measures current weather conditions, including inside/outside temperature, humidity, barometric pressure, wind speed and direction, dew point, and rainfall. Sets up in minutes and starts sending data wirelessly to the indoor console. You'll also get weather forecast icons, moon phase, sunrise/sunset times, graphing of weather trends, alarms and more. The innovative Weather Center button displays additional data for today and over the last 25 days.

The fully-integrated, corrosion-proof sensor suite was subjected to cyclic corrosion tests simulating extreme marine weather environments. Sealed electronics provide protection against the elements. Vantage Vue withstands freezing winters, high winds and blistering sun.

Vantage Vue is perfect for marinas, vacation homes, gardens, schools, universities, businesses, firefighting and emergency response teams.

Features

Displays indoor and outdoor conditions.

Temperature and humidity, barometric pressure, wind speed, wind direction, rainfall and more.

Reliable data transmission. Frequency-hopping spread spectrum radio. Radio compatible with Vantage Pro2.

Quick and easy installation. Mounting hardware kit included.

Durability in extreme conditions.

Corrosion-resistant cover on sensor suite; radiation shield on temperature/humidity sensor prevents false readings from radiated and reflected heat.

Bubble level. Allows more accurate installation and better data collection.

Easy-to-read display. Backlit LCD screen measures 3 x 4 3/8" (8 x 11 cm). Glow-in-the-dark keypad for night viewing and domed buttons for better feel.

Graphs. 50 on-screen graphs for comparing current and past weather.

Alarms. 22 alarms to warn of dangers such as high winds, possible flooding and high heat.

Forecast icons. Let you know to expect sun, partly cloudy, clouds, rain or snow.

Optional WeatherLink®. Data logger and software offer extensive weather analysis and data storage. PC, Mac and Internet versions available.

Specifications

Wireless frequency-hopping spread spectrum radio offers transmission up to 1000 ft. (300 m)—three times farther than the competition. Optional repeaters extend the range even more.

Updates every 2.5 seconds—up to ten times faster than the competition.

Outside Temperature readings from -40° to 150° F (-40 to 65° C). Inside temperature readings from 32 to 140° F (0 to 60° C).

Wind Speed as low as 1 mph (1 km/h) and as high as 200 mph (320 km/h).

Wind Direction in compass points or degrees.

Rain Collector measures rainfall with 0.01" resolution or 0.2 mm resolution with metric version.

Barometer's five-position trend arrow shows whether barometric pressure is rising, falling or stable.

Relative Humidity, inside and outside, given in 1-100% range, ±3% accuracy.

Variable display options. See updated variables every 10 seconds for heat index and wind chill to get a better "feel" for the outside environment.

Solar Powered. Lithium battery provides backup when needed.

Compact Console. Size 7 1/2 x 6 x 4 1/2" (19 x 15.2 x 11.4 cm). Weighs only 1.2 lbs. (0.5 kg).

Integrated Sensor Suite. Size 13 1/8 x 6 x 15" (33.4 x 15.2 x 38.1 cm). Weighs 2.2 lbs. (1.0 kg).

Vantage Vue mounts on top of poles 1 to 1 3/4" in diameter (2.54 x 4.45 cm). Pole sold separately. Tripod also available.

Vantage Pro2™ Wireless Weather Stations

Professional and Rugged—Ultimate Versatility and Options

Vantage Pro2 offers the professional weather observer and the serious weather enthusiast rugged performance and a wide range of options and sensors. You'll get your own local forecast, highs and lows, totals or averages, and graphs for virtually all weather variables over the past 24 days, months or years—all without using a PC. Vantage Pro2 uses frequency-hopping spread spectrum radio to transmit and receive data up to 1,000 feet (300 m) line-of-sight. Fast updates every 2.5 seconds (10 times faster than the competition).

Vantage Pro2 is also an excellent choice for emergency professionals, farmers, schools, researchers, municipalities and others to monitor wind and moisture conditions, irrigation requirements and potential flooding. It can be customized with a range of add-on options, such as solar and UV radiation sensors, soil moisture stations and long and short-range repeaters.

Vantage Pro2 features:

Rainfall. Measured in 0.01" or 0.2 mm increments.

Temperature. Both inside and outside, currently and for each of the last 24 hours.

Humidity. Both inside and outside, currently and for each of the last 24 hours.

Wind Speed. Up to 200 mph, in 1 mph, 1 knot, 1 km/hr, or 0.1 m/s resolution. Anemometer can be installed separately from rain collector for highest accuracy.

Wind Direction. Both current and dominant, shown on compass rose with 16 points.

Barometric Pressure. Given by a five-position trend arrow.

Current and Historical Data. Records such as highs and lows may be viewed for up to 24 days, months or years.

Forecast. Displayed in icons for sun, partly cloudy, clouds, rain or snow. 12-hour icon forecast plus 24–48 hour ticker tape forecast at bottom of screen.

Moon Phases. Eight stages shown, from new to full to new.

Time and Date. Always on view. Also displays time of sunrise, sunset, time and date of highs and lows.

Ticker Tape Display. Provides expanded forecast details and additional information on current conditions.

Graphing Function. Shows last 24 hours, days or months of readings or highs and lows. View over 80 graphs, including additional analyses of temperature, rain rate, wind and barometric pressure. Optional WeatherLink® software allows even greater analysis.

Alarms. May be set for more than 70 functions.

NIST

Vantage Pro2

AVAILABLE

Choose wireless model for easiest installation, ability to add additional consoles or special-purpose stations, and reduced risk of lightning strikes.

Choose cabled model for most economical installation. For field installations, consider using Vantage Connect (see page 25).

- Cabled version includes console with AC-power adapter and 100' (30 m) cable. No solar power.
- Wireless version includes transmitter (in weather-resistant shelter) and receiver (in console). Range is up to 1000' (300 m) outdoors, line-of-sight. Typical range through walls under most conditions is 200' to 400' (60 to 120 m). Data may be received from more than one transmitter. You can retransmit from one console-receiver to another, allowing viewing of the same weather data in more than one location.

Vantage Connect™ Brings Remote Weather Stations "Within Range" with Cellular Updates

NEW

Get real-time weather data from remote locations with good cellular coverage right to your smartphone or computer using Vantage Connect.

Vantage Connect combines the weather receiving power of a Vantage Pro2 or Vantage Vue and an integrated data logger with cellular technology to transmit your weather data to a secure page on WeatherLink.com. View the data online or download data to your PC for analysis, archiving and reporting. Vantage Connect can be programmed to send you an immediate email or text message alarm when weather conditions, such as high wind or frost warnings, occur.

Wireless Vantage Connect works with a Vantage Vue or any Vantage Pro2 Integrated Sensor

Suite (ISS) and has a 1000 ft. wireless range (300 m). The cabled Vantage Connect installs using the 100 ft. (30 m) cable from a cabled Vantage Pro2 ISS.

Vantage Connect is a self-contained, weather-resistant, solar-powered unit with battery backup that comes with mounting hardware, WeatherLink software and your own WeatherLink Network account. Requires an annual service plan and one-time activation fee. See www.weatherlink.com for more information.

Complete system requirements: Windows XP or above. iPhone and Android compatible.

WeatherLink® Data Logger & Software Package

For the ultimate in weather monitoring, add WeatherLink to any of our weather stations. The data logger fits neatly into your console, storing weather data even when it's not connected to your PC. Later, download the data and use the software for detailed analysis and graphing.

With WeatherLink you can:

- See current conditions at a glance on the instant weather bulletin.
- Graph data on an hourly, daily, weekly, monthly, or yearly basis.

• Generate Weather Watcher reports in National Climatic Data Center format.

- Track multiple stations on the same PC using one WeatherLink for each station.
- View data from the same station on two or more PCs with Extra User Licenses.
- Create your own weather website.

Data storage and transfer features:

- Choose a storage interval of 1, 5, 10, 15, 30, 60, or 120 minutes.
- Store up to six months' worth of data, depending on the storage interval.
- Download manually whenever you like, or set the station to download automatically at the same time every day.

Additional features:

- Quick-view weather forecast icons with text messages for expanded details.
- Moon phase icons.
- Wind chill based on the formula adopted by the National Weather Service.
- Expanded temperature measurements and optional sensor reporting.
- Easy participation in the Citizen Weather Observer Program or the international GLOBE Program (Windows version only).

All of the following are included:

Data logger, software on CD, and 8' (2.4 m) cable to connect data logger to your computer.

Sail on the Edge!

BLACK MAX™

Wind Direction Indicator

Black Max™ attached to a boom

Unique
adjusting system
fits masts or booms
from 1.5 to 2.5"
(38 to 64 mm)

Tough • Versatile • Sensitive

Black Max is a versatile, high performance wind direction indicator that attaches quickly to masts and booms on most small boats such as Lasers and Sunfish. The tough, high impact plastic vane is designed to withstand years of punishment and the abuse of small boat sailing. The stainless steel mounting arm and set screw, as well as a tough plastic mounting base, add to the system's durability. Wind vane length 8" (20 cm).

Extra Vane

#1452 \$14.99

011698 14520 1

Black Max comes in
its own *unbreakable*
protective storage
tube.

TELO-CAT™

Telo-Cat includes complete mounting instructions for the following catamarans:
 • Hobie 14, 16 • Supercat 15, 17
 • Prindle models with turnbuckle forestay adjuster • NACRA 5.2
 Telo-Cat will also fit other catamarans using forestay fittings similar to models above.

*A must for
your
Catamaran!*

Designed especially for catamarans, the Davis Telo-Cat is durable and highly visible. Installs on the headstay bridle in seconds; easily removed for trailering (no tools required). Comes complete with high visibility 8" (20 cm) vane, adjustable tacking arms, and mounting hardware to fit most catamarans. Made of high impact plastic with a stainless steel shaft and tacking arms. The vane rides on a super sensitive nylon bearing system for extreme accuracy in light or heavy weather. Highly visible markings. Adjustable reference arms. Telo-Cat can take the abuse of catamaran sailing.

Wind vane length 8" (20 cm).
Weight 2.9 oz (82 g).

Why WINDEX® is the standard on Most Mastheads around the World...

Windex offers a wide range of masthead wind indicators well suited for racers and cruisers from 15' (4.6 meters) to well over 100' (30 meters). All Windex vanes feature a sapphire jewel suspension bearing, large fin/low inertia vane and easy-to-read, fully adjustable tacking tab system. Reflector tape on the vane and tacking tabs make Windex easy to see at night.

Windex is the perfect choice for all cruising and racing boats from 15 feet and

- Sapphire suspension system
- Large fin, low inertia vane
- Adjustable tacking tabs
- High visibility reflectors on vane and tabs

bigger. Windex vanes are sturdy; they've been tunnel tested to wind speeds of 80 knots! Installed properly, they offer many years of hassle-free use.

You don't have to be an America's Cup skipper or Grand Prix racer to appreciate the sensitive responsiveness, durability and best value of a Windex wind vane. Next time you're on the water, look up and you'll see what most sailors choose... Windex!

The sapphire suspension bearing allows Windex to seek wind direction in winds less than one knot and above. No other wind vane in the world is as sensitive to super light air and small puffs—or as responsive when the breeze picks up.

10" WINDEX vane

For Small Boats and Dinghies

Sapphire suspension bearing, 10" vane (25 cm) and adjustable tacking arms with tabs. Vane and tabs feature reflectors for high visibility day and night. Includes glass reinforced polycarbonate J-Base for side, top or front of mast mounting on most dinghies, smaller boats and sport boats. Stands just 9.25" (23.5 cm) tall and weighs 1.2 ounces (31 g).

UNIVERSAL MASTHEAD MOUNT

Extend your Windex 10.Sport or Windex 15 vane away from masthead obstructions and turbulence. The 13" (33 cm) arm comes with hardware allowing side or top mounting and offset angles up to ±20 degrees.

May be attached securely to flat, curved, vertical, horizontal, or inclined surfaces. Gain space aloft and improve mounting position of wind finders and other equipment. Mount on the back of the mast for easier viewing from the cockpit. The mount adapts to virtually every masthead situation.

Length 13" (33 cm), weight 3.2 oz (90 g). Boom can be shortened if necessary; complete instructions included. Can be used with Windex Light #3200. Also accommodates Davis J-Base Mounts (using #10 stainless steel screws and nuts, not included).

#1705 Universal Masthead Mount

011698 17050 0

\$29.99

J-BASE™ Versatile Mount for Windex 15 and Windex 10.Sport

Standard with Windex 10.Sport, J-Base can be ordered as an option for Windex 15. Allows for side, top or front mounting on most masts, on big boats or dinghies alike. J-Base is made of glass filled polycarbonate, 2" (5 cm) long. Includes stainless steel set screw and two #10 self-tapping screws. Reduces overall weight by 15 grams when substituted for standard Windex 15 mounting base.

#3155 J-Base for Windex 15

\$9.99

#3125 J-Base for Windex 10.Sport

011698 00194 1

\$9.99

Some tips for using your Windex:

- Always assemble your Windex with Locktite® or use silicone seal on the threads to eliminate the possibility of the unit unscrewing in use from vibration.
- Prior to unstepping your mast, take your Windex down first.
- Periodically check the assembly screws holding your Windex together.
- Spare parts can be ordered from your local dealer or from Davis; identify which model you have before calling.

- Lubrication is never needed, but years of salt or dirt build-up should be rinsed off with fresh water occasionally.
- Use our Universal Masthead Mount, #1705, for installations requiring more room at the masthead. This mount extends Windex away from the masthead up to 12 inches (30 cm).
- Add an LED Windex Light #3200 for nighttime sailing.

WIND-TELS™ Fit All Shroud Sizes

Utilizing port and starboard colored plastic vanes, Wind-Tels are ideal for saltwater sailing. The unique method of attachment prevents sliding or fouling of your Wind-Tels on the shrouds. Effective at any angle of heel in the lightest winds. Marine grade metal parts for durability.

AIR-FLOW TELS™

You're Sailing Blind Without Them!

Port and Starboard Colors

Red and Green

#950
14 TELS **\$7.99**

011698 09500 1

Lightweight, ripstop nylon Air-Flow Tels attach to sails with waterproof adhesive locator discs. No holes required. Tels show the air flow across the sails—allowing you to trim sails for maximum performance. Each kit includes 14 Tels and full instructions on where to apply them and how to read them.

Using these precision marine hand bearing compasses, you can easily obtain quick magnetic bearings on shore or floating objects. Simply align front and rear sights on an object and read off bearing. Uses include quick bearing or position set, determination of angular gain or loss on the competition while racing, checking distance offshore, establishing lee-bow set while cruising or racing in currents, drift vectoring and plotting a line of position.

The stable, liquid-damped compass card is graduated in 5° segments, with bold graduations every 15° for easy reading. Large, contoured handle designed for sure, steady grip and angled forward for added control. Entire instrument is lightweight design for easier bearing. Lanyard and complete instructions included.

FEATURES UNIQUE TO ILLUMINATED MODEL:

- Solid-state LED illumination system floods the compass capsule and sight vane with soft light. The LED will last for the lifetime of the compass. Batteries, which are included, will last up to 10 times longer than with regular bulbs.*
- Positive “push-on” switching action, with vinyl boot water protection. Battery housing has high watertight integrity.
- Made of high impact, grey plastic.

* Based on manufacturer's data, average LED “half-life” is approximately 10 years if operated continuously.

The Original SPAR-FLY™

*America's
Most Popular
Wind Indicator!*

*Comes equipped with BOTH
a top mount fitting and a
quick-release side mount.*

The Spar-Fly combines needle bearing balance, high impact plastic, and marine grade metals for unsurpassed sensitivity and durability. Spoiler holes in the vane reduce lift and increase accuracy. Spar-Fly is unaffected by angle of heel. Easily seen from the deck because of its V-shaped silhouette and bright red color. Weighs only 1.25 oz. (35 grams).

**Named
“Best Buy”
by PRACTICAL
SAILOR:**

“Both simple and absolutely foolproof, especially when you need an accurate bearing in a hurry.” “Proven, simple, cheap, accurate... what a bargain!”

All Davis Master Sextants feature the following professional specifications:

- 7" (18 cm) frame radius. Graduation 120° to -5°
- Index mirror rectangular, 1.98" x 1.49" (50 x 38 mm).
- Precision machined slow travel gear and worm mechanism.
- Highly visible, easy-to-read micrometer drum and vernier allowing readings to 2/10 minute of arc.
- Fully ribbed, three-circle sextant body for platform strength and stability.
- Large, contoured handle designed for sure, steady grip and angled back for added control.
- Seven large sunshades allow complete, independent adjustment of shading density for horizon and index mirrors.
- 3 x 27 mm star telescope with anti-reflective coated glass lenses, plus separate hooded sight tube for glare-free sun shots.
- Neck lanyard frees hand and protects sextant.
- Tough, fully padded, shock-resisting carrying case with compartments for extra batteries and mirror kits.

MARK 15
#026 \$229⁹⁹

011698 00260 3

- Large, easily adjusted mirrors using new instrument-quality glass and a special baked on salt-spray resistant backing. Both mirrors have protective housings. Horizon mirror is half-silvered. No adjustment wrenches required.
- Molded of high-impact, weather-resistant plastic.

Extra Mirrors, Spring and Screw Kit #R026H \$20⁰⁰ 011698 00271 9

DELUXE
MARK 25

with full-field dielectric

#025
011698 00250 4 \$299⁹⁹

- Full-field Beam Converger with quartz hardcoat replaces conventional half-silvered mirror. Horizon and astrobody images are combined in a single full-field for easy, reliable sights under the most difficult conditions.
- Special mineral coating is selective for different wavelengths of light. Horizon is transmitted in one color region and the star or sun in another.
- Improved reinforced plastic stiffens frame for greater measurement accuracy.
- High-efficiency LED (solid-state Light Emitting Diode) illumination system, which floods arc and drum with soft light. The LED will last for the lifetime* of the sextant. Batteries, which are included, will last up to 10 times longer than with regular bulbs. This is another Davis first! Positive "push-on" switching action, with vinyl boot water protection. *Average LED half-life is approximately 10 years if operated continuously.

"Highest Recommendation"

"As an experienced open-ocean navigator, I have relied upon my Davis Mark 25 Sextant for over eight years. It has proven to be of the highest quality, both in construction and performance, of any sextant that I have handled. In numerous crossings of the Pacific Ocean, in fair weather and foul and in vessels from 38 to 620 feet, this lightweight plastic sextant has held up where more traditional metal sextants have failed. Calibration is simple, and the full-field view makes it a joy to operate compared to split-screen models. It has my highest recommendation. I simply have nothing bad to say about Davis or their products."

— David P. Wood, Arlington, VA

*Not including the 1.5 lb. (.68 kg) carrying case.

MARINE SEXTANT MARK 3

\$59.99

Learn to Navigate

- Full 7" arc (18 cm)
- Four sun shades
- Instantly adjustable
- Corrosion proof

The result of years of practical experience in the manufacture of precision instruments, this plastic sextant has been used as the sole means of navigating both the Atlantic and Pacific oceans. Enabling the yachtsman to take a ship to any port of the world, it is used by professional, amateur and student navigators alike. This rugged, full-sized instrument reads to within 2' of arc! Instruction booklet included.

TIP The Celestial Navigation Quick Reference Card (#132, pg. 17) summarizes the use of sextants at a glance!

ARTIFICIAL HORIZON

Practice navigation without going to sea!

More accurate than a natural horizon...

Answers the need of every sextant user who cannot depend on a natural sea horizon. Use for backyard practice, finding exact position when inland, and making exact sextant shot on foggy mornings. To use, fill with water and read the angle of the reflected sun with your sextant. Half your sextant reading is the sun's angle above the true horizon. Windproof and corrosion resistant, the reflecting surface is completely enclosed. Comes with two sun shades, a lid and full directions.

Compact 6 x 4 x 1 1/2" (15 x 10 x 4 cm).

carchip

Continuously logs performance behind the wheel and under the hood!

CarChip Pro

Think your teen or employee is a safe driver? Don't wait to find out. Wish you could read your car's mind? Davis has a complete line of vehicle monitoring devices.

CarChip Pro plugs instantly into the OBD II (on-board diagnostics) port in your car or truck, where it continuously logs vehicle and driver performance. Download the data to your PC, and you'll get complete details for each trip, plus information on engine performance. Diagnostic trouble codes can be read when the check engine light comes on. Stores up to 300 hours of driving data. Download the data at any time and clear the memory to start again, or let CarChip automatically overwrite the older data. CarChip software allows analysis, graphing and charting of data. CarChip also has self-setting and audible alarms for speed, hard braking, and quick acceleration.

CarChip Connect **NEW**

Manage your vehicles in real time

CarChip Connect fleet map.

PATENTED

CarChip Connect is a small GPS telematics device that plugs into the OBD II port. Data is sent using cellular technology to the web-based software, providing GPS fleet tracking in **real time** anywhere you have internet access. Equipped with a 3-axis accelerometer, the device monitors motion in all directions—forward, backward, sideways, and up and down. Vehicle settings, such as acceleration/deceleration and cornering forces, idle time and geo-fence locations, are stored directly on the device. You get real-time feedback—not update interval feedback. If a driver exceeds the vehicle settings, an audible beep will immediately alert the driver. Programmable email or text alerts keep you informed, too. Use the powerful web analytic and engine monitoring capabilities to further understand how your vehicles are performing.

#8351 CarChip Connect telematics device

\$295.00

One-time activation fee and choice of service plan required.

CarChip Pro and **CarChip Connect** can be used in most cars and trucks sold in the USA and Canada, model years 1996 or later. For a list of excluded vehicles, and to learn more about CarChip Connect, please visit www.carchipconnect.com.

SOLiCHARGER-SP

**Solar charger, high output speakers,
 rugged carrying case—all in one!**

Take along stored energy to recharge your cell phone or portable device on the go! You can charge the 2000 mAh internal battery from the sun, from a PC, or by plugging into any type of USB port. SoliCharger's tough Cordura® case also provides protective storage for devices like a Playstation, camera or cell phone. Use the powerful 3-watt stereo speakers to listen to music, enhance games, or make a hands-free conference call. Output rate is 300–500 mA, and you can use your phone or device while it is charging. LED charge indicator tells you how much charge is available.

- Charges any iPhone®, GoPro®, tablet, MP3 player, cell phone, digital camera
- Rich sound from your mobile devices or laptop

Includes adapters for 32 pin Apple®, USB, USB Mini, USB Micro, and USB female for all iPhones 5 and above

#3480 SoliCharger-SP with speakers \$49.99
